Transfield Services Announces New Project Start -- Marks 13th Contract with Florida Department of Transportation --

January 5, 2008 (Richmond, VA) – Transfield Services North America, Transportation Infrastructure (Transfield Services) today announced the start of a new, seven-year contract with the Florida Department of Transportation to provide asset maintenance services in Escambia County.

The contract began on January 1, 2009 and is eligible for renewal.

The contract spans more than 260 centerline miles of State roadways and includes major thoroughfares such as US 90 and US 98.

Transfield Services North America, Transportation Infrastructure President and CEO, William Mooney, said today: "This contract increases our presence in Florida's Panhandle. We look forward to extending our operations and maintenance services to the residents and travelers of Escambia County."

Transfield Services will provide routine maintenance services to roadways and bridges including: drainage, vegetation, aesthetics, traffic services, callbox maintenance, permit processing, incident management and emergency response.

"Our unique approach to maintenance contracting means we are able to invest meaningfully into the local community by providing opportunities to local subcontractors. We are looking to outsource the majority of the services to local subcontractors and encourage companies of all sizes to bid on components of the overall contract," said Mr. Mooney.

Transfield Services currently provides similar asset maintenance services for the Florida Department of Transportation on 12 other projects across the State including nine neighboring counties in Florida's Panhandle.

Local subcontractors should contact Transfield Services at 850-434-2986 if interested in participating in this contract. A Contractor Outreach Meeting will be held on January 27 at the Transfield Services' office at 3885 N. Palafox Street, Pensacola.

Transfield Services North America, Transportation Infrastructure (formerly VMS Inc.), the company that pioneered the outsourcing of asset management services, was founded in 1995 to provide innovative and money-saving solutions to the preservation of transportation infrastructure. Its key service is providing operations and maintenance services for transportation infrastructure and associated facilities such as interstates, roadways, toll roads and facilities, rest areas, welcome centers, tunnels, bridges and airport infrastructure and systems.
